

FRONT LIGHTED CLOCKS

STYLE 60A00 FRONT-LIGHTED DESIGNS.

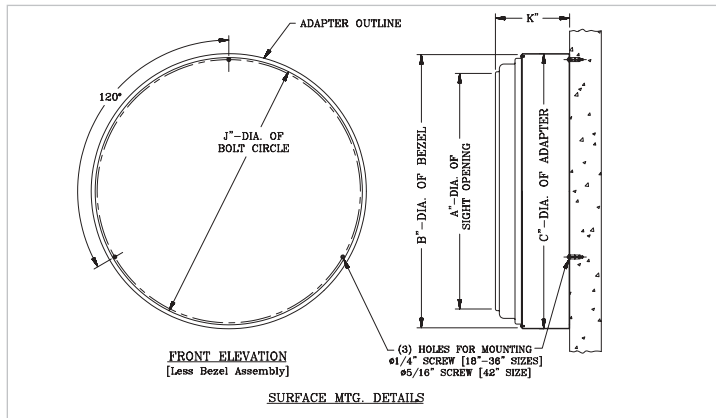

Style 60A00 Clocks are completely weather-tight front-lighted tower clocks available in sizes from 18" to 54". Standard dial as shown "AI" and hands "WS". Also available with any of the face designs as shown on page 5 of this catalog or those of your own design. Clock consists of an aluminum bezel finished with an exterior grade polyurethane finish, white aluminum dial, and clear crystal. Clock lighting is provided by means of an off-white neon tube located under the inside lip of the clock bezel. The neon lighting is subtle and long lasting. All clocks can be set by our 99B tower clock control.

OPTIONS:

White neon or special color neon tube (red, blue, etc.).
Special color bezel, dial markings or clock dial.

60A00 with SF ring - Surface adapter - Semi-flush mounting - neon front lighting. Aluminum canister with semi-flush mounting ring. For installations where the rear or side of the clock will be exposed to the elements, or will be visible in a finished space.

60A00 - Surface adapter - Surface mounting - neon front lighting. For mounting to the surface of the wall where a recess in the wall cannot be provided.
