

## METAL OVERLAY DESIGN

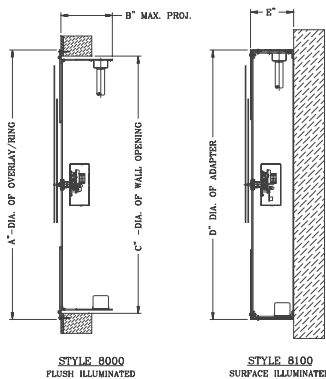

### STYLE 8000 & 8100 METAL OVERLAY DESIGN CLOCKS

Style 8000 clocks consist of an aluminum dial cut into dial designs Q, U, or Y. All styles are available in sizes from 2' to 16' in diameter. All styles available with any design of hands as shown in this catalog. Sizes larger than 8' are cut into sections and bolted together at the project site. This design of clock is not furnished with a protective crystal.

The **Style 8000** clock is furnished with an acrylic dial with backlighting essentially the same as the Style 2400 & 4600 clocks as shown on page 9.

The **Style 8100** clock is furnished with an acrylic dial in a surface mounted adaptor with illumination essentially the same as the Style 6600 and Style 3600 shown on page 11. Available on special order with laminated translucent glass dials
